Gentlemen:

Based on the information supplied, we recognize you and your subordinates whose names appear on the list you submitted, as exempt from Federal income tax under section 501(c)(4) of the Internal Revenue Code.

You and your exempt subordinates whose yearly gross receipts normally are more than \$5,000 are required to file Form 990, Return of Organization Exempt from Income Tax, by the 15th day of the fifth month after the end of the annual accounting period unless you include the subordinates in a group return. The law imposes a penalty of \$10 a day, up to a maximum of \$5,000, for failure to file the return on time.

An exempt subordinate is not required to file Federal income tax returns unless it is subject to the tax on unrelated business income under section 511 of the Code. If an exempt subordinate is subject to this tax, it must file Form 990-T, Exempt Organization Business Income Tax Return. In this letter we are not determining whether any of the activities of you or your subordinates are unrelated trade or business as defined in section 513 of the Code.

Unless specifically excepted, you and your subordinates are liable for taxes under the Federal Insurance Contributions Act (social security taxes). Also, unless excepted, you and they are liable for tax under the Federal Unemployment Tax Act (FUTA), if during the current or preceding calendar year you or they had one or more employees at any time in each of 20 weeks, or you or they paid wages of \$1,500 or more in any calendar quarter.

Each year, within 45 days after the end of your annual accounting period, please send the following to the:

SPECIFIC PURPOSES FOR WHICH
THE ORGANIZATION WAS FORMED

Attached is a brochure which is a statement of purpose prepared for public distribution. The brochure summarizes the efforts of the organization to educate and influence public opinion to protect the rights of the unborn child from abortion.

NATURE OF ACTIVITIES

The primary activity to date has consisted of an educational program utilizing speakers who present a discussion of the abortion issue together with slide presentations, tapes, films, etc. concerned with embryonic and fetal development and scientific facts available to support the contention of the organization that there is human life before birth which should be protected. The organization has and will also prepare publications, newsletters, and has and will disseminate other information on the issue to the public. In 1973, the organization presented its position to the Missouri Legislature in their consideration of a memorial to the United States Congress requesting that the Congress take appropriate action to passing of amendment to the United States Constitution which would guarantee the right to life of the unborn child; the organization also presented its position to the Missouri Legislature in their consideration of legislation which would have restricted the practice of abortion in the State of Missouri. The organization will participate in and advocate judicial and legislative considerations of abortion and will advocate and seek to influence public opinion in favor of a constitutional amendment to reverse the recent decision of the United States Supreme Court on abortion.

In addition, the organization will advocate and pursue positive alternatives to abortion in an attempt to resolve the social problems which are the ultimate cause of a decision to abort.

To date, our activities in pursuit of these purposes and powers has primarily consisted (as noted above) of speaking presentations to local groups, such as high school and college classes, church organizations, some isolated TV appearances on talk shows, and at other similar convocations. At such meetings or presentations, while presenting scientific evidence on the humanity of the unborn child, we emphasize the fact that abortion is not the only answer to the social problems which influence a particular individual to consider abortion. We remind the audience that there are waiting lists of two or three years or more at state and local adoption agencies for people who very much want to accept what might be for some others "an unwanted child". We make the audiences aware of the existence of counseling and social welfare organizations such as "Birthright", an organization devoted to individual counseling and assistance for problem pregnancies.

We have not to date undertaken individual counseling or supportive activities, but may do so in the future with professionally qualified personnel such as physicians, psychologists, psychiatrists, social workers, and attorneys.

The legal intervention in judicial decisions has not been undertaken to date on an active basis, but we are empowered and will consider intervention in law suits concerned with the abortion issue as amicus curiae or even perhaps a party. Such intervention will seek to persuade the courts to give the protection of law to the unborn child or to those who may not wish to choose to perform abortions or have abortions performed on them.

The intervention in the political process consists of efforts seeking to influence legislatures, Congress and the government in general to enact laws which will protect the unborn child. We have in the past and will encourage in the future, voters to write their lawmakers to make their views known on this particular issue. We will encourage lawmakers to vote favorably on pro-life bills.

We have not and will not support any particular political candidate for political office, but will solicit support from all candidates and officials for this position.

The organization is concerned for the life of the unborn child and wishes to encourage people not to choose abortion. If we can persuade individuals that there are alternatives to abortion -- that is, abortion is not the only answer to their particular problem, we may save lives. If we can provide the protection of law that still existed in the vast majority of our states prior to the Supreme Court decision, we will have accomplished a major step in our goal. The general public will be the recipient of all of our primarily educational activities. We want to influence public opinion of the correctness of our position and of the dignity of human life at all stages. The public will be informed and will be encouraged to join and support our efforts.
